 N=1005 Margin of Error +/- 3.2 percentage points

103. In 1986, the National Childhood Vaccine Injury Act came into effect providing liability protection to all vaccine manufacturers for injuries and deaths due to their products. In 2020, Congress amended the PREP Act in order to provide liability protection to COVID vaccine manufacturers. In your opinion, should vaccine manufacturers have liability protection (i.e. cannot be sued) in the event an individual is injured or dies as a result of a vaccine?

103. In 1986, the National Childhood Vaccine Injury Act came into effect providing liability protection to all vaccine manufacturers for injuries and deaths due to their products. In 2020, Congress amended the PREP Act in order to provide liability protection to COVID vaccine manufacturers. In your opinion, should vaccine manufacturers have liability protection (i.e. cannot be sued) in the event an individual is injured or dies as a result of a vaccine?
