13. The PREP Act (enacted by Congress in 2020) offers vaccine manufacturers liability protection – meaning a consumer cannot sue any vaccine manufacturer for their product causing injury or death. Which of the following viewpoints comes closer to yours regarding the PREP Act enacted by Congress? Statement A. I trust there is good reason Congress passed a law that gives vaccine manufacturers protection against being sued. Statement B. Legislation should not protect vaccine manufacturers against being sued for one of their products causing injury or death.
