 N=1007 Margin of Error +/- 3.2 percentage points

39. According to New York State law which will go into effect 2024, a reduction in political contribution limits will be phased in with public financing of campaigns supported by a combination of voluntary tax payer check off and general budget funds, The new law provides for matching funds to smaller donations received by qualified candidates. The estimated cost to taxpayers could be as much as \$100 million per year. What is your position on using public funding in support of candidate campaigns in this manner?

 N=1007 Margin of Error +/- 3.2 percentage points

48. Ranked Choice Voting (as was used in the 2021 New York City municipal primary elections) gives voters the option to rank candidates in order of preference (i.e. ranking candidates on the ballot as 1st, 2nd, 3rd, 4th, and 5th choices). If you still want to vote for just one candidate, you can do that. An instant runoff process is then used and the election is decided as soon as one candidate receives a majority of votes. Based on this description of ranked choice voting, would you say you ...

48. Ranked Choice Voting (as was used in the 2021 New York City municipal primary elections) gives voters the option to rank candidates in order of preference (i.e. ranking candidates on the ballot as 1st, 2nd, 3rd, 4th, and 5th choices). If you still want to vote for just one candidate, you can do that. An instant runoff process is then used and the election is decided as soon as one candidate receives a majority of votes. Based on this description of ranked choice voting, would you say you ...

56. Which of the following statements comes closer to your own view regarding the requirement for 45,000 signatures in order to get a third-party candidate on the ballot for Governor in New York state? Statement A: The previous limit used to be 15,000 signatures in order for a third-party candidate to get on the ballot. The new limit of 45,000 signatures is discriminatory towards third party candidates that want to break the mold. Statement B: A third party candidate should show viability and increasing to 45,000 signatures ensures the political system remains stable.

Statement A: The previous limit used to be 15,000 signatures in order for a third-party candidate to get on the ballot. The new limit of 45,000 signatures is discriminatory towards third party candidates that want to break the mold. Statement B: A third party candidate should show viability and increasing to 45,000 signatures ensures the political system remains stable.
